

FUNDED BY THE 2012 CLEAN AND SAFE  
NEIGHBORHOOD PARKS BOND

PUBLIC NOTICE

*Alamo Square Park*  
Water Conservation Project

The Recreation and Park Department, in coordination with the Alamo Square Neighborhood Association (ASNA) and the SFPUC, is undergoing a public planning process to maximize water savings at Alamo Square Park. \$2.3 million in funding for this project is provided through the 2012 Park Bond's Water Conservation Program and the SFPUC's Grant Assistance for Large Landscape Retrofit Program. The shared objective of these programs is to maximize water savings through conservation and innovation by replacing antiquated irrigation systems that are leaking and poorly laid-out; improving irrigation design and efficiency, including the installation of "smart" controllers; and planting lawn alternatives where appropriate. Potential water savings at Alamo Square Park is 2,500,000+ gallons annually, which is equivalent to a 33% water-use reduction!

A community meeting was recently held on July 10, 2013, to present a landscape concept plan associated with water conservation improvements for Alamo Square Park. Presentation materials may be found online at:

<http://sfrecpark.org/project/alamo-square-water-conservation-2012-bond/>

The recent concept plan responds to public comments from a May 2013 community meeting, and was subsequently supported by consensus at the recent July community meeting.

The next step in the planning process is a presentation to the Recreation and Park Commission for adoption. This is a two-step approval process that includes a presentation on August 7, and final action on August 15.

You are invited to provide comments on the landscape concept plan to the Recreation and Park Department through July 31, 2013. Comments may be submitted to Marvin Yee, Project Manager, at [Marvin.Yee@sfgov.org](mailto:Marvin.Yee@sfgov.org), or by calling (415) 581-2541.

Updates on the Alamo Square Park Water Conservation Project will be available online at [www.sfrecpark.org](http://www.sfrecpark.org). For more information, please contact Marvin Yee, Project Manager, at [Marvin.Yee@sfgov.org](mailto:Marvin.Yee@sfgov.org), or by calling (415) 581-2541.
